	Binary	Ternary
Data points	23,061	5,229
Systems	700	126
Components	333	125

b Thermodynamic state space**c Chemical-family coverage**

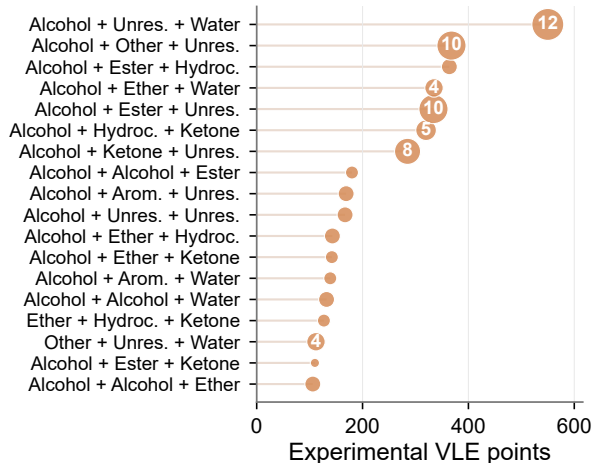

Binary pairs and ternary triplets

c1 Binary family-pair distribution

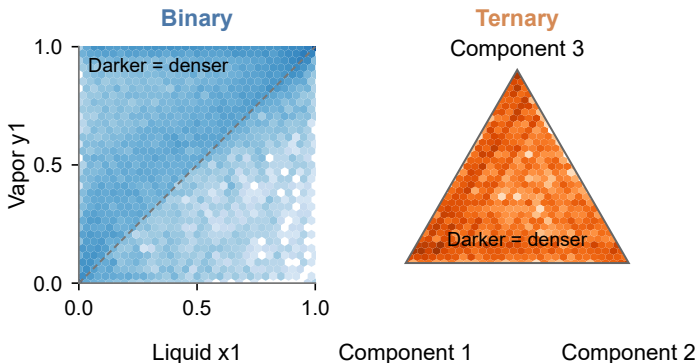

79 unordered family pairs

**c2 Ternary family-triplet distribution**

Top 18 by VLE points · 49 triplets in total

**d Composition-space coverage**

Liquid and vapor compositions

**e Binary-to-ternary coverage**

Constituent binary subsystems observed
