

a Dataset size

	Binary	Ternary
Data points	23,061	5,229
Systems	700	126
Components	333	125

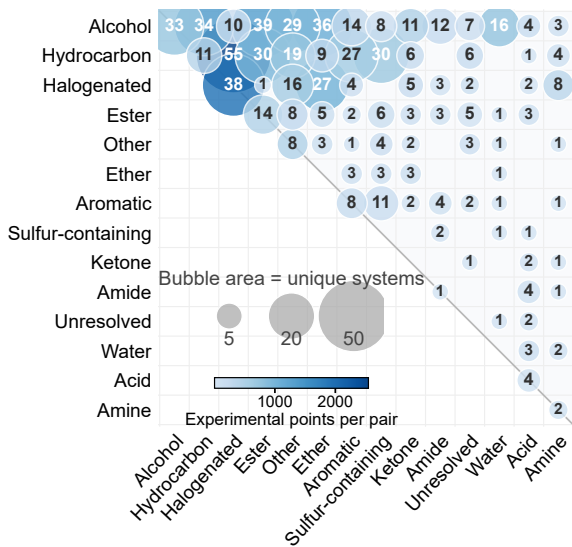

Pressure (kPa; logarithmic scale)

b Thermodynamic state space

c Binary family-pair distribution

All 79 unordered pairs in upper-triangular coordinates

d Ternary family-triplet distribution

All 49 triplets · family names shown directly on the axes
