Systems	394	986
Components	252	345

b Thermodynamic state space**c Chemical-family coverage**

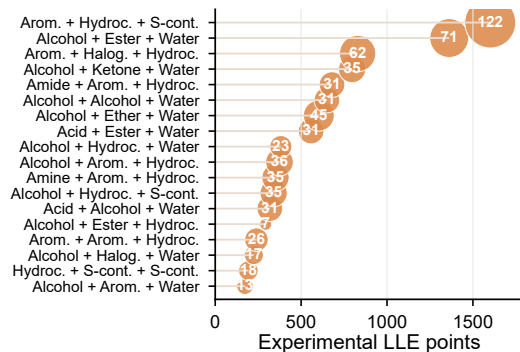

Binary pairs and ternary triplets

c1 Binary family-pair distribution

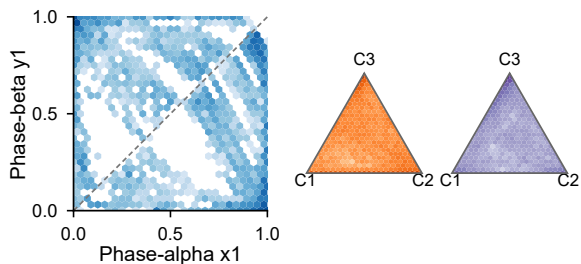

45 unordered family pairs

**c2 Ternary family-triplet distribution**

Top 18 by LLE points · 116 triplets in total

**d Coexisting-liquid composition space**

Phase-alpha (x) and phase-beta (y) compositions

Binary Ternary phase α Ternary phase β **e Binary-to-ternary coverage**

Known constituent binary subsystems
